MINISTRIES INTERNATIONAL

## Robert & Debby Lugar

Dear Lighthouse Family,

Our transition to the States has certainly not been what we expected. The challenging times we are all living through have presented some unforeseen obstacles. But we raise our voices with the chorus of believers from around the world who can testify to God's grace, goodness, blessing, and presence through every challenge and trial.

We thank God that we have been able to maintain contact with Christian workers and leaders around the world through email, phone, and video conferencing. Recently we have been able to work with two couples who demonstrate God's faithfulness through every stage of life and ministry.

One couple are leaders in their mission and have been on the field for many years. They are persevering through some extreme challenges including physical injuries and sickness, emotional difficulties, and heartbreaking situations on their ministry team. Yet they remain faithful and confident in their trust in the God who has faithfully guided and provided through their years of ministry.

The other couple are newly married and just beginning their missionary service. Their future seems filled with questions, concerns, and fears. But their commitment to serve God is not shaken, and they are moving forward in spite of the fear and trusting God with the future.

We consider it a tremendous privilege to serve God by caring for, strengthening, and encouraging His servants. We are still waiting to get settled in our new home and see what this service will look like in the future. We thank God for blessing and leading us during these many years of ministry. And we thank you for praying with us as we continue to move forward in this new chapter in our life.

Working together for Christ,

## Robert & Debby Lugar
